THE FREEDOM TO CATCH MORE FISH

FOUNDED BY FISHERMEN. WITH ENGINEERING DEGREES.

◆ With today's marine technology advancing so rapidly, consumers are understandably cautious when it comes to purchasing marine electronics due to products becoming obsolete soon after hitting shelves. ProNav set out to break that mold by providing an integrated wireless firmware update feature in our products so that customers are never stuck with outdated electronics again. We back up the ProNav Angler with an industry-best two year warranty, an unheard of one-year satisfaction guarantee, and "small business" customer support. We call it the ProNav Promise: we develop robust products that we stand behind and back with world-class customer support, because we are fishermen too.

- Travis White, CEO and Co-Founder

Are you ready for total freedom on the water?
SMARTSYNC™ SEAMLESS INTEGRATION

The ProNav™ Angler GPS Autopilot is a smart, GPS-guided autopilot system that controls your boat's every move, so you don't have to. Driven by the easy-to-use **ProNav Angler Chartplotter App** (found on Google Play or iOS App Store) you can quickly connect your smartphone or tablet to the Angler on or off the grid; the ProNav Angler does not require cell service or a data connection to function. Designed to let anglers focus on fishing, not fighting to keep their boats on course, the compact GPS device connects to the shaft of your bowmount trolling motor in seconds and allows you to easily control a full suite of navigational functions directly from your mobile device without the need for a costly chartplotting sonar unit. The new **ProNav Motion Controller Accessory** adds PointDrive™ point-and-go driving, PointJog™ automatic positioning, and an arsenal of additional features to make boat control easier than ever. **ProNav SMARTSYNC** is the seamless integration of these smart control options to provide you with intuitive, total freedom on the water.

# PLUG AND PLAY AUTOPILOT BUILT TO LAST A LIFETIME.

The ProNav Angler system is built to last. Starting with a hardened plastic case with A stainless steel reinforcement, the hardware can withstand the toughest environments and harshest conditions. The electronics are protected by an epoxy potting that provides shock and drop protection while also serving as a waterproof corrosion barrier. Strong cables and plugs offer secure, sealed connections to the motor that you can count on.

- TOOL-FREE INSTALLATION
- FULLY POTTED WITH DURABLE, MARINE-GRADE EPOXY
- SEALED, MARINE-GRADE CONNECTORS
- STAINLESS STEEL REINFORCEMENT

TECHNOLOGY THAT MAKES FISHING EASIER AND MORE FUN.

Developed with expandable capabilities and continuously evolving control algorithms, the ProNav Angler has a rich suite of sensors and communication for cutting edge control. As the first GPS autopilot employing Bluetooth Smart (4.0) technology, the ProNav Angler leads the way in leveraging the Internet of Things (IoT), to unlock advanced controls. Precise control relies on the 10-axis motion and compass module, an advanced GPS, and robust PID control loops tailored for high performance boat positioning. As a connected device, the ProNav system can be upgraded wirelessly, via mobile app updates coming directly from our developers. This means the newest updates and product expansions are available to all users, not just the newest users.

- BLUETOOTH SMART 4.0
- 10 AXIS COMPASS
- MARINE-GRADE GPS
- ADVANCED PID CONTROL ALGORITHMS
- CLOUD-CONNECTED
- WIRELESS FIRMWARE UPDATES

SAY HELLO TO YOUR NEW
CHARTPLOTTER.

The ProNav Angler is the world's first and most capable GPS Autopilot to be controlled by an app on a smartphone or tablet. Designed as a simple add on, easily and quickly add features your trolling motor doesn't have at a fraction of the cost and complexity of other systems. Designed specifically for fishing, it is backed by the ProNav Promise and will make your day on the water more successful.

GET IT ON Google Play **Download on the App Store**

EASY TO USE ROUTES

The ProNav Angler allows you to create unlimited routes on your favorite bodies of water. Routes can be created and easily modified on or off the water from your mobile device - use the map view to select points along your desired route. Your traveled path is recorded with "bread crumbs" and can easily be converted into a saved route.

SPOT ON GPS ANCHOR

Regardless of wind, waves, or current, the ProNav Angler's Anchor can hold a precise boat position to fit your needs. Anchor points are easy to create and select from the Live Map View, and the Angler's Go-To-Anchor feature can guide you in to a distant anchor point from any location. Save unlimited anchor points in the ProNav Cloud.

VECTOR HEADING LOCK

ProNav Angler Vector Navigation will keep your boat on a straight course by correcting for drift caused by wind, waves, or current. This feature is ideal for days where conditions are less than ideal but the bite is good. Choose between GPS Vector and Compass Heading Lock to dial in exactly how you want to fish.

NAVIONICS CHARTS INTEGRATION

ProNav has partnered with Navionics to integrate their world-leading cartography into the ProNav™ Angler Chartplotter Application. With Navionics integration, the ProNav app turns your smartphone or tablet into a powerful chartplotter device. View one-foot contours and underwater details for as low as $14.99.

- **FULL MANUAL CONTROL**
- **UNLIMITED STORAGE**
- **SHARE ROUTES & WAYPOINTS**
- **AUTOMATIC CLOUD BACKUP**

MOTION HANDHELD CONTROLLER ACCESSORY
POINT. DRIVE. FISH.

The ProNav Angler Motion™ is a revolutionary handheld controller that gives anglers the edge they seek with PointDrive™ point-and-go driving, PointJog™ automatic positioning, and an arsenal of additional features to make boat control easier than ever. ProNav Angler Motion is a waterproof, handheld controller that pairs via Bluetooth with the ProNav Angler, a GPS autopilot for electric trolling motors, to give you total boat control independently from or in conjunction with the ProNav Angler Chartplotter App.

Mark Button
Easily mark your favorite fishing spots, catches, or structure that you locate — points will be saved in the ProNav Angler app.

Play/Pause
Pause your route or anchor, navigate with manual controls around obstacles and resume by hitting the button again.

GPS Anchor
Pressing the anchor button will hold your boat in its current location. When in anchor mode, easily PointJog your position by pointing the controller and pressing the Drive button to adjust your anchor location a set distance in the pointed direction.

Bluetooth Connection
A robust Bluetooth connection automatically pairs with the ProNav Angler GPS (after initial pairing) and also syncs with the ProNav Angler Chartplotting App for custom configuration of the ProNav Angler Motion and current navigation readouts.

Manual Control
Increase or decrease thrust, turn left or right, turn the prop on and off, and adjust your vector heading on the fly.

Compass Vector Heading Lock
Maintain a compass heading with the Compass Vector Lock. Easily achieve a controlled drift with the wind, waves, and current while keeping a fixed heading. Quickly change your heading by pointing the controller in any direction and pressing the Drive button.
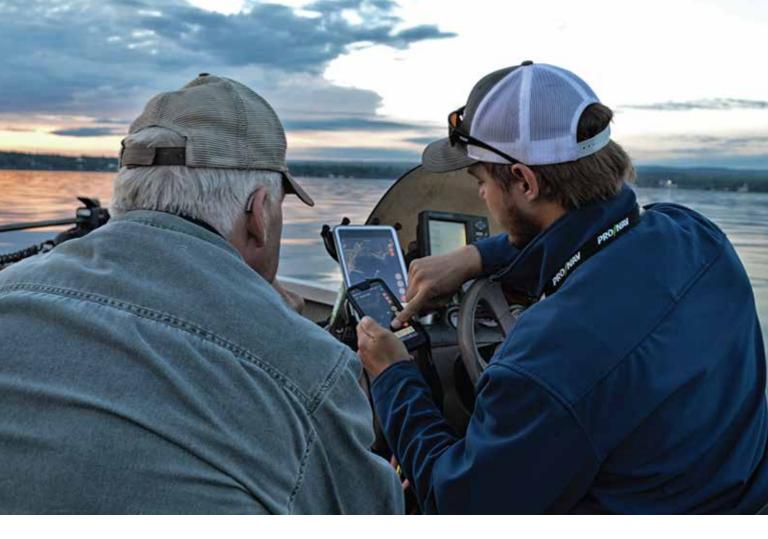

GPS Vector Heading Lock
Set a fixed course over ground with the GPS Vector Lock and stay on it while your motor does the work against wind, waves, and current. Adjust your course over ground by pointing the controller in any direction and pressing the Drive button.

PointDrive™ and PointJog™
The Drive™ button can be used to change your heading and to jog your anchor location by simply pointing the controller in the direction you want to go and pressing the button.

Speed Control
Switch back and forth between setting a speed in MPH and setting a motor thrust percentage.

SATISFACTION GUARANTEE + WARRANTY + WORLD CLASS SUPPORT.
THAT IS THE PRONAV PROMISE.

When you offer an unheard of one-year satisfaction guarantee, a two-year warranty, and unbeatable customer support, you create a brand promise that can't be beat. Whether you have sales-related questions or need product support, the ProNav team is here for you. That's the difference. That is the ProNav Promise.

NO, YOU DON'T NEED
CELL SERVICE!
